

The 40 Horse, 20 KVA,
Multi-Tasking Beast
That Watches Over
Baghdad's Green Zone...

The superbly engineered new ARU-320T provides astonishing new capabilities to the most compact, yet powerful product line in the fire/rescue industry. With tandem axles, a 40 HP four-cylinder diesel, and a 20 KVA alternator, you've got all the power and space you'll need for dual-power-source high pressure breathing air compressors, Class 2 containments, multi-line hydraulic extrication systems, utility compressed air, fire suppression systems, and up to 9000 watt light towers.

Whether it's multi-faceted rescue operations, breathing air resupply, fire scene illumination, or disaster scene power, the new 320T will prove to be the most versatile piece of equipment in your fleet. The ARU-320T... chosen by the elite American firefighters of Baghdad Fire Rescue to protect our troops and diplomats in the most demanding rescue environment in the world, the Green Zone of Baghdad.

Powerful, functional, and versatile...

Power Train Options

- 40 HP Lombardini four-cylinder diesel engine with 20 KVA Getec alternator
- 24 HP Honda gasoline engine with 13 KVA Getec alternator

Breathing Air Compressor & Reel Options Available With Four DOT or ASME Tanks

- 10.2 cfm 6000 psi 10 HP three-phase electric motor- dual power source available
- 9 cfm 5000 psi 7.5 HP three-phase electric motor- dual power source available
- 7 cfm 5000 psi 5.0 HP single-phase electric motor- dual power source available
- 200' low pressure breathing air reel for confined space operations

Two-Position SCBA Refill Containment Options

- Class II Eagle Air Sidewinder Steel Containment
- Class IV American Airworks Aluminum Containment

Hydraulic Extrication Options

- Single, double, or triple line pumps with corresponding number of Hannay reels

Lighting Options

- Two front-mounted, portable Havis-Shields 900 watt Magnafire 3000's
- 17' or 20' Nightscan mast with four or six Magnafire 3000 lights

Utility Compressed Air Options

- Dual Fini air compressors totaling 13.5 cfm with up to two Hannay 150' reels

Fire Suppression Options

- 30, 60, and 100 gallon stored energy CAFS systems with 75' hose reel

Air Bag Options

- Two Vetter 26-ton airbags with hoses and Command Control Console
